UNION PUBLIC SERVICE COMMISSION

******

PRESS NOTE

18th August, 2022

With a view to facilitate the process of submission of applications by the aspirants of its Examinations, the Union Public Service Commission is glad to launch 'One Time Registration' **(OTR)** platform on the Commission's website at upsc.gov.in and upsconline.nic.in on 24 X 7 basis.

2.   The OTR will be quite useful for the candidates as it will not only save them from filling in their basic personal details again for any subsequent Examination being conducted by the UPSC, but also eliminate any possibility of submission of incorrect information by them as their basic personal details will be validated by the candidates themselves. Since about 70% information of an aspirant in the OTR will automatically be pre-populated in the online application form of an Examination, the time for filling/submitting an online application form will be reduced considerably.

3.   The aspirants, who wish to apply for any future Examination(s) of the Commission, are required to register themselves in the OTR platform by filling up their basic personal information indicated therein. Once the registration of an aspirant is completed, the information will remain stored securely in the Commission's servers. An aspirant's information will get automatically populated in the online application form of an Examination for which she/he applies.

4.   It is advised to peruse the OTR instructions and fill in the information in the OTR with extreme care to avoid any complications in future.
